

IMPREZA **RB5**

 **SUBARU**
PROVEN THE WORLD OVER

The Impreza Turbo
2000 RB5 is every
bit as distinctive as
the man who gives
this limited edition

its name. Richard Burns became the British Rally Champion in 1993 with Subaru. Now, displaying a rare maturity for his years, he is seen as the coming man in the World Rally Championship. To celebrate his return to the Subaru team for 1999, driving car No. 5, a mere 444 examples of the RB5 have been created in conjunction with the World Rally team engineers from Prodrive. The rarity of the car is confirmed by an individually numbered dash plaque. Its rallying pedigree is underwritten by its purposeful looks and a stunning 218 PS, 2.0 litre turbocharged engine. Although capable of rocketing the RB5 from 0-62 mph in 6.3 seconds, this awesome power is always delivered responsibly, through the active safety of Subaru's legendary full-time all-wheel drive complemented by ABS braking.

World rally success is written all over it.

The Subaru Prodrive sporting Pedigree is everywhere you look.

From its 'boxer' engine and linear drivetrain, to the huge turbo inter cooler air intake, stylised driving lamp covers and Pirelli P Zero Low-Profile tyres on special titanium coloured Prodrive Speedline alloy wheels, there's no mistaking the RBS's rallying lineage.

By contrast, discreet RBS badges and understated Blue Steel Metallic paintwork quietly testify to this car's cachet. Inside, too, there are echos of the rally car in the contoured Alcantara and Jersey front seats. But the rest is all comfort and luxury – from the air conditioning, driving light conversion and Momo steering wheel to the leather wrapped Prodrive quickshift gear knob and handbrake amongst a wealth of other distinguished details.

Naturally, for a car of such capability, the added reassurance of twin airbags and impact protection beams to front and sides is standard. While for security's sake, a Category 1 alarm and immobiliser system is fitted with remote central locking.

As with all vehicles marketed by Subaru (UK) Limited, the Impreza Turbo RBS also comes with the assurance of a 3 year/60,000 mile warranty (whichever comes first), as well as 3 years' free membership of Subaru's home and

roadside assistance scheme, covering the UK and Europe. You also get a 6 year anti-corrosion warranty for added peace of mind.

It goes without saying that this very special version of the 1990's most successful rally car will go fast - in both senses of the word. So, if you want to drive an RB5, we recommend you follow Richard Burns' example, and get your name on the leader board very quickly indeed.

RB5 Price on the Road: £24,995.00 includes VAT, 12 months road fund licence, number plates and delivery to dealer premises (UK mainland only).

The RB5 — Enhanced Further.

While Richard Burns puts his initials on the RB5, you can also stamp your own personality on it with the WR Sport Official Prodrive Package, a collection of high profile components developed and tested by the same engineers who prepare the factory team cars.

The WR Sport Package includes a special high level rear spoiler, whilst the RB5's awesome performance is increased further with the installation of an upgraded engine management system and stainless steel performance exhaust. If you specify this very individual package at the time of ordering your new RB5, the on the road price will be £27,545.00.

Further Prodrive enhancements can also be ordered. For the full personalised details, just ask your dealer — and make your exclusive RB5 unique.
